91° Above, But Alert Council Buys Snow Plow

1944 Tax Levy Ordinance Approved; No Increase over 1943

With the temperature hovering around 91 degrees above zero (official recording for the U. S. Weather bureau), the Antioch village council and President George B. Bartlett took heed of the future and approved the purchase of a snow plow for the village, at a meeting Tuesday evening in the village hall.

The annual tax levy ordinance was presented, read and approved. This year's levy, which is substantially the same as last year's, will amount to about 67 cents per \$100 assessed value.

The auditor's yearly audit was also presented and accepted.

Routine business, including the reading of the treasurer's monthly report and the paying of municipal bills, occupied the balance of the meeting.

This year's tax levy has been set at \$11,720.00. Last year's was \$11,225.00, and the 1942 levy was \$11,730.00.

Of this year's levy, \$1,200.00 will go toward the retirement of the village's bonded indebtedness, leaving a balance of \$2,000.00 to be retired during the next two years. Last year \$1,200 was paid on the bonded indebtedness. The sum of \$170 will go to the payment of interest on the bonded indebtedness.

Somewhat larger than last year's amount is the 1944 levy for the maintenance, repair and upkeep of fire trucks, apparatus and equipment, since allowance is being made for the possibility that the fire department may purchase a new motor to replace that now in use in one of the trucks. This year's levy is placed at \$1,800.00 which includes the \$1,200.00 which it is estimated will be required for the new motor.

Other items are about on a par with last year's.

They include salaries of municipal officers and employees, \$3,500; printing, office supplies and expenses, \$300; heating and operating cost of village hall and fire and police stations, \$200; lighting of public streets, alleys and public buildings and places, \$1,900; maintenance and repair of sewers, sewer improvements and buildings, \$150; maintenance, repair and improvement of streets, alleys and sidewalks, \$500; parks and playgrounds, \$500; maintenance of parks and playgrounds, \$500; residual and contingent funds, \$500; salary and wages of chief of fire department and members, \$300; maintenance and repair of public buildings, \$200.

In addition to sums raised by taxes, village funds are also raised through licenses and fees, the sale of water, contributions from various state funds and various miscellaneous sources.

The village at present has a substantial sum, in the form of "sinking funds," and so on, invested in war savings bonds.

The books of the village clerk and village treasurer were described by E. F. Laurin, Chicago, auditor, as being "well kept and in good condition."

Mid-Summer Fete Will be Held by Beachwood Group

Dancing Party Announced for Saturday, August 12, at Petite Lake

A mid-summer dance to be held in the Petite Lake Community house Saturday evening, Aug. 12, will climax the season for the Beachwood subdivision, north side of Petite lake.

The dance is being sponsored by the Beachwood Improvement association, of which Max Slotta is president.

The association has been responsible for \$400 worth of improvement on the roads in the subdivision since early this spring, President Slotta reports. Some of the money for these improvements was raised by cottage owners through benefit parties which they sponsored in Chicago.

"We hope to continue improvements until we have made our subdivision one of the finest in the lake region," Slotta states.

The date of the Royal Neighbors' Lake county convention here has been advanced to Aug. 17.

Rescue Squad Dance Tickets Are in Demand

Judging from advance sales of tickets, which are reported to be "going like hot cakes," there will be a record crowd on hand for the annual Antioch Rescue Squad benefit dance, Thursday evening, Aug. 17, in the Channel Lake pavilion 3 miles west of Antioch, just off Highway 173. Several thousand tickets have already been sold, and while many persons have purchased more than one ticket, it is believed that the dance will be well patronized.

News of the Boys in Service

Pvt. Jack Trope Is "Missing in Action"

Mr. and Mrs. Al B. Maier of Lake Villa have received word that their son-in-law, Pfc. J. A. Trope, has been reported by the war department as missing in action since June 22, in the European theater of action.

Their daughter, the former Miss Betty Maier, and her little daughter are expected to arrive this Friday from Florida for a stay with the Maiers.

Pvt. Theodore L. Schock, formerly at Red Bank, N. J., (Fort Monmouth), is now at Camp Campbell, Ky.

Pfc. Bennie G. Peterson may be addressed via New York APO 615.

T/SGT. DONALD MARSHALL, OVERSEAS 6 YEARS WITH MARINES, RE-VISITS LAKES

Home in the United States for the first time since he enlisted in the U. S. Marine corps six years ago, T/Sgt. Donald Marshall of Maywood, formerly of Channel Lake, and Miss Betty Marsh of Bellwood were guests at the Henry Homan residence during the week-end.

Sgt. Marshall attended Antioch Grade school and the family resided in Antioch and Channel Lake until 1935.

Since joining the marines in 1938, he has seen action in China, Japan and Hawaii, attached to the 5th Amphibious corps, and was aboard the U. S. S. Astoria in Pearl Harbor at the time of the attack on Dec. 7, 1941. He will return to active duty August 6.

Greetings have been received from Pfc. Charles Waters, who gives San Francisco APO 502 as his new address.

From an Air Service Command station in England—"Sgt. Ray Quadenfeld, 520 Lake street, Antioch, Ill., recently completed an orientation course designed to bridge the gap between training in the States and combat soldiering against the enemy in France.

"At this . . . station, Sgt. Quadenfeld attended a series of lectures given by battle-wise veterans which included instructions on chemical warfare defense and pertinent tips on staying healthy in a combat theater. "His next station will be one from which America's fighting planes cover our liberation of Occupied Europe.

"Before entering the Army Air forces, he was employed as a stockroom worker at the Abbott laboratories, North Chicago, Ill."

FOUR NIELSEN BOYS ARE NOW IN ARMED SERVICE

William Nielsen, CM 1/c, was transferred recently from Camp Peary, Va., to Shoemaker, Calif. Nielsen, who is married and has two children, served in the navy several years ago and re-entered the service last April.

He is the son of Mrs. Anna Nielsen, State Line road, and the late Nels Nielsen. He has three brothers in the service, Paul F. fireman first class, in the Pacific area; T/3 James, New York APO 230, and T/Sgt. Harold, San Francisco APO 7.

Pfc. Bernard D. Sherman, son of Mrs. Lucy J. Himens, was a member of a large class of aerial gunners to guard the Army Air Force's bombers, graduated this week from the AAF Training Command aerial gunnery school at Harlingen, Texas.

The new "sharpshooter of the sky" received a pair of gunner's wings as well as a promotion in grade. Unless retained at Harlingen as an instructor, he will join an aerial combat team.

A comprehensive seven-week course in every phase of aerial gunnery warfare prepared him for his place in America's stepped-up air offensive. Besides learning to fly every (Continued on page 6)

G. O. P. Favors Re-Election of County Officers

Advocates Change to Let Sheriffs and Treasurers Succeed Themselves

Amendment of the Illinois state constitution to permit county sheriffs and treasurers to succeed themselves in office is advocated in a resolution adopted at a recent meeting of the Lake County Republican Central committee.

The text of the resolution as sent out by John J. Spellman, Lake Forest, chairman of the Central committee, and Joseph N. Sikes, Waukegan, secretary, to the various precinct committeemen and to newspapers of Lake county is as follows:

"Whereas, under the present State Constitution, County Sheriffs and County Treasurers cannot succeed themselves in office; and

"Whereas, all but seven States have modernized this provision to permit County Sheriffs and Treasurers to succeed themselves; and

"Whereas, the Executive Committee of the Lake County Republican Central Committee desires to place itself on record in advocating a change in the State Constitution to allow County Sheriffs and County Treasurers who have made outstanding success in the administration of their offices to run for re-election; and

"Whereas, the ballot box is the time honored method of correcting any abuses that might develop by a Sheriff or Treasurer succeeding themselves.

"Now Therefore Be It Resolved by the Executive Committee of the Lake County Republican Central Committee that all precinct Committees be advised of this action and be urged to support the amendment to the Constitution at the next general election on November 7, 1944."

Alan Thain Will Represent Co. at Conservation Meet

Has Scholarship to Attend Northern Ill. Session at Lake Villa

Alan Thain of Millburn, an Antioch High School student will be Lake county's representative when the Illinois Conservation school on Fox Lake near Lake Villa opens its second session, on Aug. 6.

The school recently graduated a class of 51 from the southern part of the state. An equal number of students from the northern part are registered for the second session, under an allotment of one scholarship to each county.

Thain won his scholarship on the basis of his work in conservation during the past two years. He has planted hundreds of forest seedlings on his home farm and done considerable work to encourage the propagation of wild life in this woodland preserve.

To Make Trips The school will consist of field trips to such places as Field museum, Shedd aquarium, Brookfield zoo, Spring Grove Fish hatchery and the Yorkville Game hatchery.

In addition, classroom instruction will be given by Illinois conservation officials. Instruction in swimming will also be given.

The students will be housed at the school, which was formerly the J. K. Dering estate on the north shore of Fox lake.

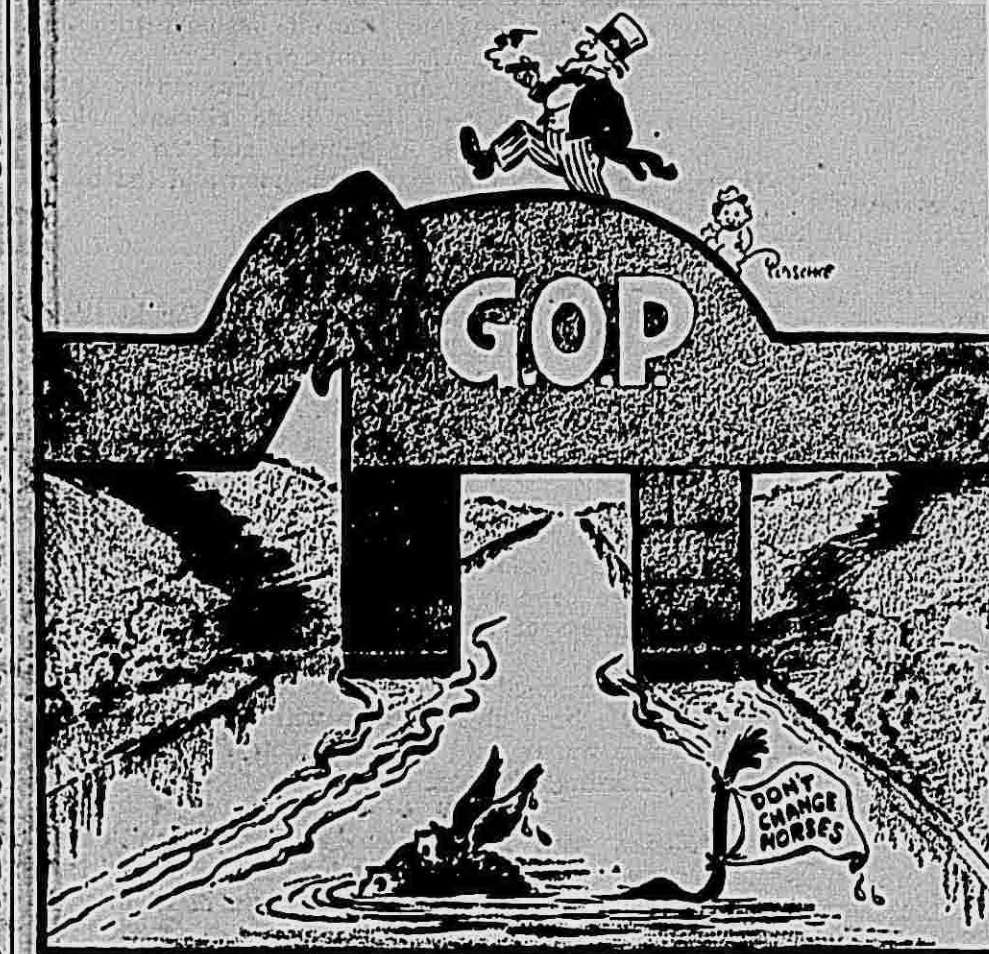

Hansen Funeral to Be Held Friday Afternoon

Vacationing at Loon Lake with a nephew, Thomas Hansen, of Chicago, who had been in ill health for some time, succumbed Wednesday morning.

Funeral services will be held in the Strang chapel Friday at 2 p. m., with the Rev. W. C. Hanslee in charge. Burial will be in Hillside cemetery.

Damages of about \$5.00 resulted, Fire Chief L. R. Van Patten estimated when sparks from a bonfire ignited a small outbuilding at the Simon Simonsen place on Orchard street Monday evening just before 6 o'clock.

Bond Campaign Totals \$194,335; 200% of Quota

Additional Allocations May Raise This Total, Chairman Klass Says

Bond and war stamp sales of more than \$194,335.37 have brought Antioch township's Fifth War Loan drive, which closed here last Thursday, more than 200 per cent over its quota of \$89,600. Township Bond Drive Chairman Otto S. Klass reported yesterday.

This total does not include allocations which will still be made to the credit of the township, but which have not as yet been received.

According to figures supplied by Klass, Antioch post office recorded 240 sales totaling \$11,850; First National bank, 220 sales, \$85,992.75; State Bank of Antioch, 404 sales, \$89,142.25.

Pay roll deductions accounted for \$7,350.37.

Workers' Efforts Helped! A total of 279 sales was credited to the visits of campaign chairmen to whom local residents made pledges to purchase bonds.

Members of the committees and Chairman Klass expressed themselves as being greatly pleased with Antioch's fine showing.

Farmers Doing Custom Work Must Get Coupons

Farmers doing custom work for their neighbors are being reminded by the Antioch-Lake Villa Township War Price and Rationing board, with headquarters at Lake Villa, to collect either the coupons or the gasoline for the amount they use in doing this work.

"The AAA through extensive research has established a basis of eight gallons of gasoline per acre per year," the board states.

"Each farm in this area is assigned gasoline on this basis. Therefore, a farmer doing custom work who does not collect coupons or gasoline for any outside or custom work is using up his own assignment and will find himself short of gasoline to operate his own farm."

Campaign on "Bag Worms" Is Advised by C. L. Kutil

Removal of the Tussock moth caterpillar, also known as "tent caterpillar" or "bag worm," colonies that are infesting many trees and shrubs in and about Antioch is urged by C. L. Kutil, agriculture instructor at Antioch Township High school.

If not removed, he points out, these colonies hatch, lay their eggs in other trees, and continue the cycle. They denude limbs of foliage and damage and kill valuable trees—and each colony allowed to exist spreads the havoc that much further.

The best methods of removal are said to be by burning the webs out with a rag saturated with kerosene, attached to a long fish pole, or by removing the branches with a pruning hook, carrying them carefully to some spot where they can be safely burned, and setting fire to them. In removing the branches from trees, care should be taken not to dislodge the worms, it is advised.

Mrs. Mildred McDaniel, Mattoon, Ill., spent the past week-end with her brother-in-law and sister, Mr. and Mrs. T. A. Brackney, Loon Lake.

Fall, Automobile Accident Bring Calls for Squad

John Schaetten Breaks Leg; Chicago Youths Badly Hurt When Car Rolls

John Schaetten of Fox Lake is recovering at St. Therese hospital in Waukegan from a compound fracture of the upper right leg suffered when he stepped into an open elevator shaft at the Antioch Packing House plant on North Main street Monday evening.

The Antioch Rescue squad, called to the plant at 9:45 o'clock, assisted Dr. W. F. Kraemer in putting him into a traction splint and removing him to the hospital.

Still in a critical condition in Victory Memorial hospital are Edward Nyquist, 18, 5145 N. Lincoln avenue, Chicago, who suffered a broken back, and John Goetchel, 2325 Oak Park avenue, Chicago, who received internal injuries, when they were thrown through the roof of their car as it went out of control on Highway 173 Saturday evening and rolled over in a field.

The Rescue squad and Dr. I. L. Breakstone were called to the scene, where a crowd of spectators had gathered at 10:46 p. m.

As nearly as could be determined, the youths, whose families were vacationing at Fox Lake, had been driving east on Highway 173, about one-half mile west of Antioch, when the car went out of control and left the highway. The two young men were thrown about 25 feet from the car, which came to a rest a short distance from the road after rolling over two or three times.

A second ambulance was called by the Rescue squad from Waukegan to supplement the Antioch truck, since because of the condition of the youths it was felt that only one should be placed in each vehicle. Dr. H. S. Toomajan of Waukegan was also called in to assist in caring for the patients.

While spectators were visibly horrified by the accident—one or two (male) to the extent of fainting, it is reported—they forbore all attempts to move the victims until the physician and squad arrived.

Emergency Call Saturday evening at 11 o'clock, the squad received a call to take nine-year-old Sue Abbs, daughter of Pfc. Carleton A. Abbs, Camp Claiborne, La., and Mrs. Abbs, 932 Park avenue, to Victory Memorial hospital for an emergency appendicitis operation.

Since the rescue squad ambulance was already out for the Nyquist-Goetchel accident, she was removed to the hospital by Capt. Herman Holbek in his own car.

Dr. I. L. Breakstone, who attended her, reports her present condition as satisfactory.

Cyclist Is Injured

Shirley Tilley, 12, of 129 Washington avenue, Waukegan, who was riding on a bicycle Saturday evening at Channel Lake where the family was vacationing, sustained a broken leg when she was struck by an automobile as she crossed the road.

Dr. Breakstone and the rescue squad were called, and she was removed to Victory Memorial hospital.

"One case in a million" was the way a conference of 14 doctors described the recovery of Victor Vogt, 9-year-old son of Mr. and Mrs. E. C. Vogt of Chicago and Paddock's Lake, who is convalescing at Victory Memorial hospital from a broken neck, brain concussion and other injuries suffered when he fell into an empty swimming pool two weeks ago.

Victor went into a state of convulsive shock while being taken to the hospital in the Rescue Squad truck, and the care given by the squad was accorded considerable credit by Dr. R. D. Williams of Antioch and Dr. George B. Callahan of Waukegan for its part in helping to save the lad's life.

Pvt. Robert Elfering Is Wounded in France

Mr. and Mrs. Felix Elfering have received official notification that their son, Pvt. Robert Elfering, who is in a hospital in England, was wounded in action in France, July 9.

While no information as to the extent of his injuries has as yet been available, they have already received a letter from their son, written since he was hospitalized, and are cheered by the hope that he will soon recover.

Two brothers are also in the service, Pvt. F. J., at Camp Roberts, Cal., and Cpl. Donald, at Camp Barkley, Texas.

Conservation School to Open Last Period Aug. 6

Fifty-two youths representing as many Illinois counties will receive two weeks of instruction in soil conservation, fish and game propagation and management, the Illinois game code and other related subjects in the second and final session of the training school conducted at Lake Villa by the state department of conservation. On completing the course, which will start Aug. 6, the students will receive diplomas signed by Gov. Dwight H. Green.

Ravenglen Cow, Bought for \$150, Is Record Holder

9-Year-Old Purchased at Waukegan 5 Years Ago Is 100,000-lb. Producer

How a four-year-old Holstein cow purchased for \$150 at the Waukegan, Wis., sale five years ago developed into a 100,000-pound milk producer is the dramatic story brought to light recently when the Holstein-Friesian Association of America announced that Colantha Ormsby Pieterje Fobes, of E. H. Ravenscroft's "Ravenglen Farms" at Antioch, had completed a 365-day production record of 653 pounds of butterfat and 20,231 pounds of milk.

According to figures supplied by Floyd Cummings, manager of the "North farm" at Ravenglen, this cow gave 21,235 pounds of milk and 734 pounds of butterfat the first year after her record was officially started as a four-year-old.

The following year, she gave 22,594 pounds of milk and 805 pounds of butterfat; the next year, 19,953 pounds of milk, 518 pounds of butterfat; the next year, 20,231 pounds of milk, 653 pounds of butterfat.

This year, to date (the official record for the year will not be completed until November), she has given 15,740 pounds of milk and 567 pounds of butterfat.

Her official record thus totals 95,753 pounds of milk and 3,277 pounds of butterfat, exclusive of milk and butterfat produced previously, which would no doubt place her well over the "100,000-lb." mark.

A number of other cows in the Ravenglen herd have made notable records, and animals from this herd have been sought from as far away as South America for breeding purposes.

Lake County Statesmen Attend Dewey Reception

Three Lake county members of the Illinois state assembly attended a series of conferences that followed a reception for Gov. Thomas A. Dewey of New York state, Republican nominee for President, and Mrs. Dewey—State Sen. Ray Paddock, Rep. Nicholas M. Keller and Rep. Harold Kelsey, Richard J. Lyons of Libertyville, Republican candidate for the U. S. senate, also attended.

The Foundation for Peace

Emphasizing that international trade is not an end in itself, but is a means to the primary goal of "steady employment at remunerative work yielding high living standards," the Advisory Committee of the Committee on International Economic Policy, composed of leaders in American business, industry, education, religion and other groups, lays down some principles designed to constitute a framework for the United Nations, within which international trade can thrive. It says:

"The great expansion of world trade in the latter half of the 19th century was made possible by the extension of a network of Treaties of Commerce and Navigation which may be said to have constituted an accepted code of international commercial law. They specifically defined the rights of aliens engaged in peaceful commerce and assured to foreign traders parity of status with the nationals of each contracting party.

"In the period of aggressive economic nationalism which preceded the outbreak of this war, many long-standing Treaties of Commerce and Navigation had been replaced by short-term agreements. The result was that national governments obtained discretionary powers over the status of alien traders, and dictatorial governments made the administration of law a matter of arbitrary interpretation. The alien trader in practice found that he had lost whatever rights he may have thought remained to him under international as well as national law. What is needed now is a single international Convention which shall incorporate the general principle that alien traders shall be entitled to receive the same treatment as is secured to citizens by their own country."

Every American must take an interest in these matters from now on.

"Soak the Rich" Means You

The average citizen had little concern over taxes five years ago. "Soak the rich" was the stock method of raising increased public revenue. Even up until two or three years ago, it seemed as if the so-called

rich could always be assessed through business or death taxes to raise public revenue. But we have had a shock "soaking the rich" will no longer pay the tax bills. From now on, the tax collector must "soak" everybody. Labor, for example, has found in deductions from its pay checks, what taxation means. In other words, industry and labor are at last in the same tax boat.

Gross earnings and gross wages mean nothing. Jobs must be created out of net earnings. Homes must be built out of net wages—the money remaining after tax deductions.

The only hope of workmen and industry to increase their net incomes after the war, is to see that government gets out of every non-essential, money-spending activity and tax-exempt government business projects that destroy taxpaying private enterprise.

Every postwar program to put government into business, competition with its private citizens, takes money out of the pockets of industry and the worker. There is no Santa Claus except the man and the business that dig up for the tax collector.

Potato Ring Rot

Potatoes harvested from fields known to contain ring rot should be used or sold for table stock immediately. Ring-rot tubers, though intact on the surface, will eventually rot from within during storage and cause a soft, wet decay. If the potatoes must be stored, they should be kept at a temperature between 34 and 38 degrees.

Painting Steel

Before painting a steel surface, care should be taken to remove all loose scale or rust by scraping or sandpapering down to the bright metal. Also, it is imperative that any greasy film be removed from the metal by an effective solvent, or the paint cannot be expected to adhere to the surface. When painting over rivets and rough edges, brush the paint towards the rivets and towards the edges to make certain that they are thoroughly sealed against moisture.

Mr. and Mrs. Howard Willett entertained the employees and families of the Willett Coach company at a picnic at the Willett estate last Saturday and a splendid time was spent.

Cedar Lake Camp of Royal Neighbors will take part in the annual R. N. A. convention to be held in Antioch on Monday, Aug. 21, beginning at 10 a. m. and continuing through the evening.

Let Fruits Stand

To harvest any but the most tender vegetables before the first frost would be a mistake. Not only do they make additional growth on warm sunny days, but they also keep much better standing in the garden than they do in a storage cellar which is too warm. In fact, most disappointments from home storage have come from harvesting winter vegetables too early.

Lowest Pass

Brenner is the lowest pass through the Alps, less than a mile above sea level at its highest point. It has played a prominent part in European history; its steep sides have for centuries echoed the clatter of hoofs and the marching of armed men.

Egg Storage

The best temperature for storing eggs is between 40 and 50 degrees. It is suggested that they should not be exposed to temperatures below 28 or 29 degrees in winter because of the danger of freezing. In summer the temperature should not be allowed to go above 68 degrees for fertile eggs.

New GOP Chairman

Herbert Brownell's career is in many ways a parallel to that of Thomas E. Dewey. Both were born in the Middle West—Dewey in Michigan, Brownell in Nebraska. Both are graduates of their native state's university, where both edited the college newspaper. Both went east to study law and practice in New York City. Both went into public office in their twenties to fight against political corruption. Both are typical of the young, vigorous and constructive Republican leadership that means good government and hope for the future.

Mr. Brownell has been active in politics for some time. In 1941 he was prevailed upon by Governor Dewey to become campaign manager for a candidate in a local New York election. Brownell put his candidate over and the next year he managed Dewey's successful campaign for governor and later conducted the fight for the election of Lieut. Gov. Joe R. Hanley, of New York.

Mr. Brownell was elected to the New York Assembly five times, retiring in 1937. He was born in Peru, Nebraska, on February 20, 1904, and shortly thereafter his family moved to Lincoln where he graduated from high school at the age of 16. He attended the University of Nebraska from which he graduated in 1924. Going East he entered Yale Law School where he edited the Yale Law Journal in his senior year. After graduation in 1927 Brownell became a law clerk in the New York firm of Root, Clark, Buckner and Ballan-

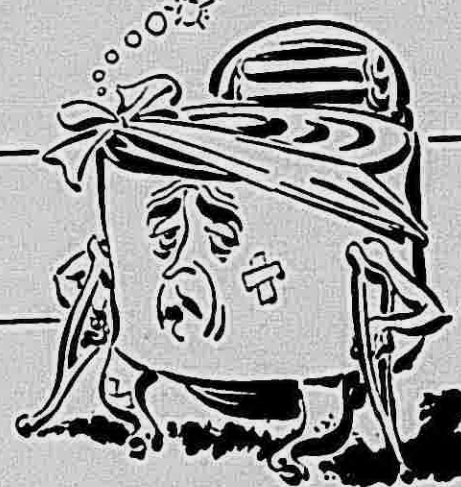

Herbert Brownell Jr., chairman, Republican National Committee.

time. He is now a partner of Lord, Day & Lord, one of New York's oldest law firms.

Brownell was a delegate to the Republican national conventions of 1936 and 1944. He is president of the 10th Assembly District Republican Club of New York, a trustee of the Nebraska University Foundation and a member of the American Bar Association and the Bar Association of the City of New York.

What causes washing machines to break down?

Answer...

Recent surveys reveal that overloading causes more washing machine breakdowns than any other reason!

It's easy to avert a breakdown due to overloading:

Do not fill the tub of your washer beyond capacity. It is important that in order not to overload your washer you follow the manufacturer's recommendations. Most washers have a water line indicated. This line shows the depth the water should be after the clothes have been put in the tub.

MILLBURN

Although traveling conditions prevented many from attending, a near capacity crowd of two hundred and ten attended the morning service of "Millburn Home Sunday" on July 30. The well chosen words spoken by the Rev. Norman L. Rice, on the subject of "Cords of Love," were appropriate and well received. He emphasized the fact that it is "cords of love" which bring people together, for such a homecoming. The Rev. Glenn Strang, pastor of the Presbyterian church at Green Valley, Ill., also assisted with the service. A bountiful pot-luck dinner was served to two hundred. The exhibit committee had prepared a display of pictures, old and new, which were of great interest to all. Some colored slides of scenes in and around Millburn were shown in the afternoon. Several pictures, both still and movie were taken. Many experiences of the past years were recalled during the day. Many thanks for the success of the day are

due the members of the various committees, to the choir, to Stanley Jack of Waukegan who was soloist, and Mrs. Jack who accompanied him at the piano, and all who were present in such a fine spirit of fellowship. The heartiest thank you should be given Rev. and Mrs. L. H. Messersmith who worked so faithfully in getting the church and grounds in such fine condition, and for their attention to every detail which made the first Home Sunday such a pleasant occasion.

Rev. and Mrs. A. G. Tozer and son, Mr. and Mrs. O. C. Probst of Waukegan, Rev. and Mrs. Glenn Strang and son of Green Valley, Ill., and Rev. and Mrs. L. H. Messersmith were dinner guests at the Victor Strang home Thursday evening.

*You can help
make history*

Militarily, this is the most important ... most urgent phase of the whole war.

The moment is at hand for American soldiers to give everything they've got in a supreme effort.

Depend on them. They will write history ... write it with their blood.

Financially, too, this is the most important, most urgent phase of the war for America.

This is the moment our soldiers depend on us to make our supreme effort in this war! We've got to make history too!

Don't fail America now. Buy Bonds. Buy Bonds and keep on buying Bonds even though it begins to pinch.

And if you think that's a sacrifice, just look at the casualty list in this newspaper ... then go out and buy some more!

COUNTY WOMAN'S CLUBS TO MEET AT FOX LAKE THURSDAY, AUGUST 17

A number of the Antioch Woman's club members, as well as the officers and board of directors, are planning to attend a meeting of the Lake County Federation of Woman's Clubs on Thursday, Aug. 17, at the Fox Lake Country club.

According to word received by the Antioch president, Mrs. John Brogan, reservations for the luncheon, for which a charge of \$1.25 is being made, should be accompanied by check and mailed to Mrs. Edward Miller, Fox Lake, in time to reach her by Tuesday, August 15.

A board meeting has been called by the county president, Mrs. Russell Hutchins, for 11 a. m. The luncheon is to be served at 12:30 o'clock.

In addition to the business sessions, there will be music featuring Summum Romberg's melodies, by a group of young singers under the direction of Thersa Cook Brown of the Waukegan club. The musical sketch they are to present was written by Mrs. Paul La Rose.

The beautiful golf course will be available to all and there will be tables for cards for those who wish to play after the program.

ST. GILBERT'S CHURCH, GRAYSLAKE, WILL HOLD ANNUAL CHICKEN DINNER
St. Gilbert's church at Grayslake will hold its famous annual chicken dinner Sunday, Aug. 6, from 12 noon to 4 p. m.

The dinner will be "served by numbers," it is announced—"If you want an early dinner, get an early number; if you prefer to be served later, get a late number."

A festival is to be held in conjunction with the dinner.

Arrangements for a sale of home baked goods were made at a meeting of Wesley circle Wednesday afternoon, Aug. 2, in the Antioch Methodist church. The sale is to be held in the Antioch News office Saturday, August 12.

LEGION AUXILIARY HONORS PRESIDENT

Mrs. Anne Heath, president, whose birthday anniversary occurs this week, was honored with a birthday cake and gift at a meeting held by the Antioch American Legion auxiliary Friday evening in the home of Mrs. Ida Osmond.

Mrs. Burt Anderson will take her little daughter, Kay, to the Shrine hospital in Chicago Friday, Kay, who received treatment at the hospital for the after effects of infantile paralysis which settled in one arm, returned home three months ago. In a fall recently she bent the brace she has been wearing on her shoulder, and she is being taken to the hospital to have it straightened and a check-up made on the progress she has been making.

Kay's birthday anniversary is Friday, but it is being celebrated with a party for her little friends this afternoon.

Mr. and Mrs. Raymond Burnette and daughter Betty and son Jerry arrived home Sunday evening from the east coast for a two weeks' visit with the Sheridan Burnettes. This is Raymond Burnette's first visit home in three years, although other members of the family were here about a year ago.

Myrus Nelson returned home Wednesday from St. Therese hospital, where he underwent an operation two weeks ago.

Kenneth Nelson, son of Mr. and Mrs. Jeff Nelson, returned home from St. Therese hospital recently.

Mr. and Mrs. William Thiemann entertained Mrs. Thiemann's sister and family of Techny, Sunday.

Mr. and Mrs. George Garland will celebrate their silver wedding anniversary Sunday, Aug. 6, with a family dinner. Mrs. George Gaulke of Chicago and John Beebe and family of Glenview will be dinner guests.

The small son of Mr. and Mrs. Floyd Lewis, of Spafford street, is ill with pneumonia at St. Therese hospital.

Mr. and Mrs. Clifford Gartley of Waukegan and Mrs. Nellie Hanke, Betty, Larry and Judy Hostetter attended the wedding of Miss Mariam Wyatt and Dale Smith at Bloomington, Ill., Friday.

Alfred P. Nees, Blunt Park, Petite Lake, is listed among the recent Red Cross blood donors at the Chicago center, 5 North Wabash avenue.

Mr. and Mrs. Robert Schleut, Chicago, were visitors recently at the Luster Badger home, Lake Cotherine. The Schleutts also expect to be here this week-end.

Births

Word has been received of the birth of a daughter to Mr. and Mrs. Clarence Verkest, Janesville, formerly of Antioch, early this week.

VENETIAN VILLAGE NEWS

A card and bunco party is being planned by the Venetian Village association for Saturday evening, Aug. 5, at Johnson's on Fourth lake. There will also be a sale of home baked goods, according to the entertainment committee, which held a meeting in Ross' Red Rose cottage last Saturday evening, with Chairman Winters presiding.

A short business session will be held in conjunction with the entertainment, President William Zink and Secretary Durling state.

Donald Zink, youngest son of President and Mrs. Zink, will enter the army air corps this week. An older brother, William, is already in the service.

Additional road improvements, including several hundred dollars' investment in grading and graveling, are planned by the road committee as soon as materials can be delivered. Chairman Rago and N. H. Engle and Sons are in charge of this work.

Mrs. Carl Anderson is vacationing in Northern Michigan with her parents. While there she is assisting in canning fruit and berries. She plans to return to the village this week.

Among the cottages on which improvements have been made this season are those of the Dr. Saltarelli, Lisle, Anderson, Deiden, Ross and Ellemann families.

A carnival is being planned by the Venetian Village association for the latter part of August.

Observer...

That new awning draped across the facade of the Antioch News office has been drawing a fair share of comments... now if we could only do something about those reflections from the windshields of parked automobiles...

There's something about harvested fields, with their shocks of grain, that is eternally impressive. The countryside around and about seems to wear a look of plenty right now that is a tribute to the fine work the farmers are doing, in spite of help shortages, curtailment of farm machinery production and other handicaps.

While on the subject of farms, it might not be out of place to mention that the observance of National Farm Safety week, July 23-29, is drawing to a close. Like many other highly essential occupations, farming does have its hazards.

Young people who have been brought up on farms are generally aware of most of these hazards and guard against them.

In these days, with so much depending on the farmers, an injury to a farm worker is, like an injury to a serviceman, not only a matter of personal concern, but a matter that concerns the rest of us, too.

The recognition of this fact on a national scale, is, in a sense, an indirect emphasis on the importance of the farmer to the nation in general and the war effort in particular.

While it can't help to compete with the files of the F. B. I., for instance, the Ant. News has a fair collection of Bertillon autographs on its front window. Just wait! Timmy O'Connell, our window wiper offer, sees 'em!

When the Antioch fire department charged forth with sirens blowing to extinguish a minor blaze Monday at 5:50 o'clock, a small spectator was audibly impressed.

"Daddy!" he exclaimed, "did you see that big fire engine?"

"Uh," said Daddy.

"It just went around the corner back there," gasped the young 'un, "And BOY! DID IT HOLLER!"

Landis—Four Jills in a Jeep
This is a rollicking and uninhibited story of what happens when four Hollywood "glamor girls" set out to entertain the armed forces.

Sues—Shark's Fins and Millet
This is an explosive book about China from the Chiangs to the coolies. With thrusts of satire and blasts of anger she exposes the sham behind the headlines.

Van Ness—Again in October
This novel gives a clean-cut picture of the difference between two generations reacting to the mores imposed upon them by society.

Walker—Winter Wheat
Ellen's Russian Mother's endurance and New England father's unspoken poetry combined with her youth made wheat-growing a thing of pride, joy, and deep satisfaction.

YOUNG ADULT AND CHILDREN
Kristoffersen—A Bee in Her Bonnet
Merry Carol began to have a good time on the farm in Nebraska and wasn't even afraid of the bees she was sure her brother meant her to have.

Lasher—Logging Chance
What caused the cables to snap without warning and how Bob won his climbing spurs and the solution of the mystery makes this an unusual story.

Lindman—Flicka, Ricka, Dicka and the Strawberries
The three little Swedish girls are most appealing when doing something to cheer up other people.

Montgomery—Big Browne
Chuck Miller wanted Happy Valley cleared of bears, but Ruff Keller knew if it were done parts of her and her father's home would be spoiled.

Norton—The Sword Is Drawn
The story of how Lorens played his own part in the war for freedom against the Nazis.

Phillipotts—The White Camel
This book is for the older children from 9 to 14 and is about the white camel and baby Ali who grew up together in Arabia.

Segal—A Ring and a Riddle
When Ivan set out to seek his fortune he met a beautiful maiden who gave him a magic ring and said, "Follow the ring and don't turn back."

Shapiro—Yankee Thunder
The legendary life of Davy Crockett. Davy weighed 200 pounds and 14 ounces when he was born and grew so fast he had to be whittled down to man-size.

Silvermann—Dexter
Dexter managed to convince the parents of the lamb, colt, donkey and pig that in spite of being a dragon he was a proper playmate.

Waldeck—Troks Across the Veldt
In the Belgian Congo, three men found their adventurous way to capture live African animals for zoos.

Cool Bread

type of weapon from camera guns to the deadly .500 caliber Brownings, he studied turret manipulation, aircraft recognition and was required to tear down and assemble weapons while blindfolded. He climaxed the course by firing on towed targets from Liberator bombers under simulated combat conditions.

Approximately 10,000 German prisoners of war will be at work processing food and fruit crops in the Sixth Service command by August 1, it was announced this week at Service Command headquarters in Chicago.

Pvt. Donald E. Gibbs, who was home recently on furlough, is now at his new station, Camp Pendleton, Oceanside, Calif.

Otto Albert Hanke, Raymond Frederick Hills and Norman Elmer Kilhelm of Antioch, and Louis Edward Tanner, Lake Villa, are included in a list of recent entrants in the armed services announced by Lake County Board No. 3 at North Chicago.

Cpl. Marilyn W. Hagen is included in a list of the personnel attached to one of the U. S. Army general hospitals in England where flying ambulances bring wounded men from France.

According to a press release received from headquarters of the European theater of operations—

"A telephone call from the landing field to the hospital's receiving office sets in motion the entire organization, which is geared for instant response. The hospital never knows in advance how many planes will arrive or how many injured each plane will carry.

"As soon as the receiving and evacuation center is called, Lieut. Col. Starrett E. Dietrich of Pittsburgh, Pa., commanding officer of the hospital, orders all the personnel to stand by under alert conditions.

"Ambulances are dispatched to the field. Capt. Otto J. Swisher of Columbus, O., the receiving officer, goes to take charge of the loading of the patients. . . . Ambulances are tagged at the air field with numbers corresponding to the hospital area. When the ambulances come back, the drivers go straight to zones near the wards where the patients are to occupy beds already prepared for them.

"To speed up the process of admission at times when large numbers of casualties arrive, the patients are taken directly into the wards and treatment begins within a few minutes. Later the registrar's office and the receiving office send men into the wards to fill in the details of the admission records.

"The patient must be made comfortable as soon as possible—that is the primary aim of the hospital's system. Every new arrival is bathed by ward attendants, fed, and examined by a ward medical officer or surgical officer. Progress charts are established, X-rays are taken, and the patients are swiftly settled in the wards.

"Each ward officer must see to it that all his new patients are given complete treatment before any officer, nurse or enlisted man is free to go off duty for rest or food.

"The type of work done in the forward areas is excellent," Col. Dietrich says. "The condition of nearly all the men arriving here is miraculously good."

From "somewhere in New Guinea," Robert J. Sheehan, coxswain, writes—"I see by the News where Antioch has a couple of new industries. I was glad to read that, and think that the future for Antioch looks very bright.

"I missed the Antioch News very much while I was being transferred from California to New Guinea. When the News caught up with me it was just like meeting an old friend from home. I wish to thank you very much and also the American Legion for your untiring efforts in keeping the addresses of the local boys and girls up to date and sending the paper.

"I am fine and food is fair. We are kept very busy and are living in tents over here in the jungle. It is very hot, rainy and muddy. We take bitter quinine pills constantly to keep from getting malaria."

Pvt. Chester A. Paasch sends greetings from Camp Fannin, Texas, and states that he expects to be moved soon to another camp.

Wray J. Sheen, S 2/c, formerly at San Diego, Calif., has been transferred to Astoria, Ore.

Pfc. Holgar Nielsen, formerly addressed via APO 937, Seattle Wash., may now be reached at Ft. Bliss, Texas.

RICHARD E. BELL RECEIVES RATING

Bluejacket Richard E. Bell, 37, husband of Kathryn Bell, Antioch, was promoted to the petty officer rate of electrician's mate third class during recent graduation ceremonies at the Naval Training School (electrical) on the University of Minnesota campus, Minneapolis, Minn.

Selected for the specialty school on the basis of his recruit training aptitude tests, Bell completed an intensive course in the use, function and maintenance of electrical tools and equipment used by the Navy.

A/S Theodore William Schmitz arrived home Tuesday from Columbus, Mo., to spend a ten-day furlough with his parents, Mr. and Mrs. Ted Schmitz of Channel Lake. He will report back to Columbus for assignment for his pre-flight work, which he is at present slated to take at Maxwell Field, Ala.

Sow Winter Rye for Early Pasture, Advice

"When it comes to an early pasture for dairy cattle or any other class of livestock, there is little, if anything, that can beat fall sown rye," states Ray T. Nicholas, Lake County farm adviser. "This fact was well proven this spring by several Lake county farmers who sowed some rye in the fall of 1943. Several of these farmers reported an increase of 10 per cent in milk production during the period when the cows were pasturing this early forage crop.

"Records kept on five Illinois dairy farms in the St. Louis district showed that rye pasture was responsible for a six-ton increase in milk production during an average period of twenty days and one-half ton of grain, 13½ tons of hay, and 30½ tons of silage were saved. Milk production was increased 17 per cent, or approximately five pounds per cow per day. The average value of this rye pasture per acre was \$19.53. Most of these fields have been plowed and put into sudan grass.

"Winter rye should be seeded the latter part of August or early September at the rate of 1½ to 1¾ bushels per acre. When seeded at this time one can usually get a few weeks of fall pasture. During the 3 to 5 weeks of spring pasture, rye yields as much dry matter to the acre as blue grass yields in an entire season."

TIME FOR CHANGE

It isn't at all surprising nor is it unexpected that New Deal proponents should lose no time getting out the mud balls to hurl at Governor Dewey, or any other candidate that might have been put forth by the Republican Party. So much mud has been heaved at the G.O.P. in the past twelve years another plastering won't make much difference. The fact still remains, the definite swing away from the New Deal has the boys worried and it can be confidently expected this time that many a mud ball will contain a brick.

The biggest howl will undoubtedly come from those who feed, financially, at the public trough. To them it's like a dentist bearing down on an exposed nerve and their groans will be heart rending. They'll cuss Hoover, who isn't a candidate for anything, to high heaven for exercising the rights of any citizen to express his views, they'll belabor Dewey because "he isn't keeping faith with the people of New York" by not staying on the job, forgetting Roosevelt was a Governor and campaigned for the Vice Presidency years ago and then they'll even bring out the Boy Scout charge on Dewey.

ON CHANGING HORSES

"There are now 26 Republican wartime Governors. In these states the people did not change horses, they changed vehicles. For times like these and in a stream like this, transportation by horse is not good enough. The American people have common sense. They have been around. When they want to get ashore quickly, trust them to get off the horse and take a speedboat."—Gov. Dwight Griswold.

forgetting twelve years ago when the President was all for ousting members of the Supreme Court because they were old men, a state in life to which he himself is now engaged. He was for youth and vigor at the time but then he was twelve years younger.—Davis (Calif.) Enterprise.

Economical and Patriotic If You Save More for War Bonds

Tropical heat waves will leave you as cool and calm as this Powers model if you wear this crisp two-piece gingham, right for town or country. You might make it in a red and white plaid, with trimming of red bias binding. Besides being fun to sew for yourself, it is economical and patriotic, for you will be able to save for more War Bonds and stamps. A suitable pattern may be obtained at your local store.

U. S. Treasury Department

Press Comment

"We content ourselves in the assurance the Republicans have nominated for the presidency in this great crisis a man of high character, of demonstrated ability and of full understanding of the responsibility of his candidacy. John Bricker will be a good and useful running mate to Governor Dewey. . . . The Republicans did a creditable job in Chicago. If they do as well in the campaign they will win the support of many independents who frequently cast the deciding ballots."—Cleveland, Ohio, Plain-Deliver.

"Governor Dewey's rousing speech of acceptance last night must have sent every delegate away from the Convention with head high. The Republican nominee only touched on the issues which he will cover in the campaign, but he touched on them with so sure a hand, so directly and searchingly that an assurance was provided of a real fighting campaign. Those who heard Governor Dewey last night heard a man with great gifts rise to the new level that opportunity and responsibility offered him."—New York Sun.

"It is a strong ticket. The Governor of New York and the Governor of Ohio, standing upon a sturdy platform, form an admirable team for the great task of freeing the American people from the bureaucratic bogs of the New Deal."—Phil., Pa., Inquirer.

WE'RE MUDDLING ALONG

While our American boys are giving the enemy a brave and brilliant fight on every battle front around the world, here at home we are continuing to make a most miserable and deplorable failure of winning the war. Bureaucratic government is surely making a foul mess of things at present and many are hoping, as a local business man remarked this week, that "the country will soon be given back to the people."—Milton (Ore.) Eagle.

Sheep Decline

The supply of sheep on farms declined for the second consecutive year from the peak reached at the beginning of 1942 to the lowest level since the beginning of 1939. The supply amounted to 51,718,000 head on January 1, 1944, as compared with 55,775,000 head in 1943 and with the 1942 peak of 56,735,000.

NEVER TOO LATE

The War Labor Board finally corrected a more-than-slight contradiction among members of its staff.

At the very time last April, when one part of the WLB was declaring that Montgomery Ward & Company was a "war" business, another branch of the same agency declared in a little-publicized opinion that Sears, Roebuck & Company was not a "war" business.

To prevent this contradiction from embarrassing the New Deal, the WLB in Washington belatedly has called Sears, Roebuck & Company a "war" industry, too.

A MERE \$250,000

Senator Alben W. Barkley says that the "difference between \$15,000,000 and \$15,250,000 is rather inconsequential" and, of course, Senator McKellar agrees with him. No wonder we can't get the truth about spending in Latin America as long as the New Deal is in power.

STILL "UNCO-ORDINATED"

Although Paul McNutt, head of the War Manpower Commission, has had more than two years in which to solve the manpower problem, it is evident in Washington that he and his thousands of political workers have not even tied in their activities with other bureaus.

When McNutt recently urged businessmen to employ furloughed servicemen for industrial and other work, the businessmen liked the idea. So did the servicemen.

But the General Accounting Office, another government agency, has labeled the practice as "incompatible and objectionable." As a result, Government agencies which claim manpower shortages and would like to hire veterans for short periods of time are stymied in their efforts.

Doesn't Hurt Hair

Despite all the time-honored notions to the contrary, washing does not hurt the hair, an expert says. With the right kind of soap, thorough rinsing and drying, the application of a little oil to hair that tends to dryness, shampooing neither dries up the scalp secretions nor increases dandruff. Instead, the dirt, dust, scales, grease, and infectious agents are removed, the circulation improved, and the general tone and appearance of the scalp and hair brought up to what they ought to be—and seldom are.

Pisa's Attraction

The Piazza del Duomo was Pisa's pre-war tourist attraction. It consisted of three buildings comprising a unit—the Cathedral, the Baptistery and the Campanile. The tower was begun in 1174. When a height of only 40 feet was reached it was discovered that, because of insecure foundations, the tower was sinking on one side. Efforts to right the structure as the building continued were unsuccessful.

News of the Boys...

road, he has three brothers in the service—Paul F., fireman first class, care of San Francisco fleet post office; T/3 James, New York APO, and S/Sgt. Harold, San Francisco APO.

Capt. and Mrs. Robert Hughes are spending the captain's two-week leave at the home of his parents, Mr. and Mrs. Carl D. Hughes, Lake Villa. Capt. Hughes is stationed at Ft. Meade, Md.

Pvt. Samuel Klass, son of Mr. and Mrs. Otto S. Klass of Antioch, has been transferred to Buckley field, Denver, Colo., from Fort Sheridan.

Cpl. Tony B. Sciaccro, Lake Villa, arrived home this week-end to spend a 10-day furlough at his home at Crooked lake. Cpl. Sciaccro, formerly at Camp Blanding, Fla., is being transferred to Ft. Meade. A brother, T/3 Frank, is in England.

Sgt. A. L. Vykrit, formerly at Camp San Luis, Calif., now may be addressed care of APO 96, San Francisco.

Cpl. Glenn W. Fox may be addressed at APO 512, New York.

T/Sgt. Charles L. Anderson has qualified for officer's training, according to word received by his parents, Mr. and Mrs. Burt Anderson, from Miami Beach, Fla., where he has been "processed through the Army Air Forces Redistribution Station No. 2, where his next assignment will be determined," to quote from an official news release.

The release continues, "This is one of the Redistribution Stations within the AAF Personnel Distribution Command. At an AAF Redistribution Station, AAF returnees from theaters of operation are examined by specially selected medical and classification officers whose joint findings are used in recommending new assignments. Theme of the AAF Redistribution program is designation of each man to duty for which he is best fitted. Returnees live at a Redistribution Station under conditions that encourage natural response to processing, the greater part of their two-week stay being devoted to rest and recreation."

"AAF personnel, enlisted men and officers alike, are assigned to a Redistribution Station upon their return to the United States, but do not report to the station until completing a furlough or leave of three weeks."

"Sgt. Anderson... won the Distinguished Flying Cross and the Air Medal with three oak leaf clusters. During seven months in the European theater, he flew 28 missions as a B-17 radio operator-gunner."

"The 20-year-old sergeant attended Antioch Township High school, and before entering the Army in December, 1942, was employed in San Francisco, Calif."

Cpl. Robert B. Burke's new address is care of New York APO 16160, B.

DONALD COLLINS RECEIVES GOOD CONDUCT MEDAL

From a USSTAF air service command depot somewhere in England comes word that Pfc. Donald F. Collins, son of Mr. and Mrs. B. F. Collins, Lake Villa, has been awarded the Good Conduct Medal for exemplary behavior, efficiency and fidelity. Prior to his enlistment in the service he was employed by Fred D. Maier, Lake Villa.

"I want to take this opportunity to thank you and the American Legion for your kindness in sending the News to me," writes Pfc. Gordon Knott from Memphis, Tenn., "I have been receiving it for the past three months and have derived immeasurable pleasure from its contents, especially the column, 'News of the Boys in Service.'"

"My army career has been favored with a lot of good luck thus far. For the past 16 months I have been stationed here with the 4th Ferrying Group. I work in the aviation ordnance office, and it is our job to see that all the outgoing ferrying crews are properly equipped with all the ordnance equipment they will need to complete their mission."

"Thanks again and best wishes to you and all the folks in Antioch."

"Here are a few lines to let you know how well I appreciate your sending me the Antioch News," writes Edward John Langbein, F. I. C. "I really enjoy reading it, especially the column about the boys in service; it gives me an idea of where some of the people are from my vicinity around the home town."

"I would also like to inform you

of my change in address, care of the fleet post office, San Francisco. "I hope you continue to send the paper, although by the time I receive it, it is a few weeks old. Of course, this can't be helped under the circumstances."

Cpl. Carl D. Wurster's new New York APO address is No. 209.

From Pvt. Wilbur C. Turner, Camp Hood, Texas—

"I'm more or less a stranger to you folks at the News office, but have many friends in town and around the lakes. I have received several copies of the News from home, but miss the ones I haven't received—but miss my friends in town more than anything."

"I suppose Lev Van Patten has the fishing well under control and has plenty of help and competition at it, too."

"The last issue I received, I found that Ray Lasco is about two miles from me, but I can't seem to get time to go and see him. I hope to, soon."

"They can write plenty of songs about Texas, but the Lakes region of Illinois will always be the place for me. The army is a busy place to be. There's always something to do. But they will make a man out of you, or know why they can't."

"There are very few mosquitoes or flies here. That helps a lot. We don't know what a good rainstorm is, all we get are little showers."

"I surely enjoy the Antioch News and hope to hear from some of the boys back there. It's time for chow so I'll have to leave."

Pvt. Turner is in Co. C, 148th Bn, 90th Regt., IRTC.

A copy of a German newspaper he picked up and samples of French currency were sent to his sister Pat recently by Cpl. Tom Quilty, son of Mr. and Mrs. Thomas Quilty of Channel Lake. Cpl. Quilty's new APO number is 350, New York.

Pvt. William A. Phillips, son of Mr. and Mrs. William S. Phillips of Antioch, may be addressed via APO 15326, San Francisco.

One of four brothers in the service is Cpl. Elmer Monnier, who is at Ft. Bliss, Texas. They are brothers of Mrs. Mike McKinney.

Cpl. Charles H. Miller's new address on the San Francisco APO list is 322.

PFC. JOSEPH MCGINNIS IS CONVALESCING IN HAWAII

Pfc. Joseph McGinnis, US Marine corps, who was wounded at Saipan, has been convalescing at a hospital in the Hawaiian islands, where his wound is reported to be healing fast. He is the son of Mrs. William Wal-smith, Petite lake.

Richard M. Kaye, Ch. Spec. (T), USNIT, has been removed from Navy Pier, Chicago, to Quonset Point, R. I. He is the son of Mr. and Mrs. Evan Kaye.

Sgt. Bob Hallwas, son of Mr. and Mrs. H. C. Hallwas, writes to his parents—

"I've been pretty busy of late in the postoffice. Ray and I wrote twelve thousand dollars of money orders and over ten thousand dollars worth today, so you see, it keeps us on our toes. We have to convert the Aussie money into U. S. money and you have to be careful. Our post office, No. 33, is a branch of the San Francisco office. We probably do a lot more business than the Antioch post office does. On one big day we took in eighteen thousand dollars."

"It has rained here about six days out of seven, and it's winter here. I can just imagine what summer will be like."

"I saw Willy King the other day and had a short chat with him. He is well."

"We are all anxious to get this over and get home. It sure would be swell to be back. This is God's country and the hell hole of the earth. We can take it, though."

Green Peppers

A dozen well-grown plants will yield a good supply of green peppers in late summer and fall. They are easily grown, requiring only a generous supply of moisture for their best development. The pepper is one plant that it is wise to sprinkle. Usually the watering is more efficiently done by taking the nozzle off the hose and letting it gently trickle over the garden and soak into the earth.

Kerosene Expands

Place the kerosene stove so that the fuel tank is not near a hot stove, radiator, hot-air register, or in the sun. Air inside a tank subjected to such heat expands and causes the kerosene to overflow onto the floor.

Vitamin-Rich

Green, leafy, red and yellow vegetables are the vitamin-rich foods so essential to nutrition. They are rich especially in vitamin A. At least one should be served on your table every day, and those who do not like them should eat them in spite of that, say the nutritionists. Some green leafy vegetables can be served raw in salads, others are cooked, and among these are the greens so highly esteemed as spring tonics by our grandmothers, who did not know about vitamins, but did know that greens were healthful.

Man O' War

About 26 years ago, Samuel Riddle bought a race horse for \$5,000. Two years later he was \$249,465 richer from purse money earned by Man O' War in winning 21 out of 22 races. During just two years of races, Man O' War ran up a record no horse before or since has been able to touch. In his prime he weighed over half a ton and stood 16 hands high. He's still a big, lustrous-coated horse, despite his 27 years.

Clean Oven

One place where neglect can cause endless trouble is the oven. Unless the walls are always well washed after baking or broiling, grease and cooking odors form a stubborn film. After a time this causes an unpleasant smoky odor which affects the food put into the oven. For the same reasons the broiler pan rack should be removed and washed with the pots and pans.

Liquid Manure

The liquid part of manure carries approximately one-half the nitrogen and three-fifths of the potash. The phosphorus and the remainder of the nitrogen and potash are in the solid part.
